

# CYCLE – 11 : THE HEAD SECTION

Set a title of a document

```
<html>

<head>
<title>The title is not displayed</title>
</head>

<body>
<p>This text is displayed</p>
</body>

</html>
```

One target for all links on a page

```
<html>
<head>
<base target="_blank">
</head>

<body>

<p>
<a href="http://www.w3schools.com"
target="_blank">This link</a>
will load in a new window because the target attribute is set to "_blank".
</p>

<p>
<a href="http://www.w3schools.com">
This link</a>
will also load in a new window even without a target attribute.
</p>

</body>
</html>
```
